LOCATION | Hyderabad, INDIA

EXPERIENCE | Fresher

Key Skills

- Core Java Programming
- OOPS
- Exception Handling
- Collection Framework
- Debugging
- Eclipse IDE
- SQL
- JDBC
- Servlets / Jsp
- Tomcat Server
- Spring
- Spring MVC
- Spring Data JPA
- Spring Boot
- Postman Tool

Certification

- Back-End Application Development With Java

Languages

- English
- Hindi
- Urdu

Profile Summary

Recent electrical engineering graduate and power plant apprentice transitioning to a software engineering career with proficiency in Java programming, Oracle, advanced Java, and Spring framework. Possessing strong analytical skills and a quick learning ability, I am actively pursuing entry-level software engineering opportunities to apply my cross-disciplinary expertise and contribute to pioneering projects. Eager to leverage my diverse experience and technical acumen to drive impactful solutions in a dynamic software development environment.

Work Experience

Internship

■ NareshIT, 245 Days

Education

■ B.Tech/B.E. - Electrical
2020

Sant Gadge Baba Amravati University
Grade - 9.09/10

■ 12th
2016

Maharashtra , Urdu
Grade - 66.00%

■ 10th
2014

Maharashtra , Urdu
Grade - 65-69.9%

Projects

■ Product Management System

2 Weeks

- Spearheaded the full-stack development of the Product Management System, leveraging Spring Boot for robust backend development and JSP and Mustache templates for an intuitive frontend interface, resulting in streamlined product management processes.
- Implemented dynamic validation and efficient database queries using Spring Data JPA, ensuring a user-friendly interface and seamless database interactions.
- Successfully addressed front-end validation challenges, leading to a substantial 40% enhancement in product management efficiency.
- Deployed the application on a customized configuration of a Tomcat server, ensuring optimal performance and availability.
